SUMMARY

Enthusiastic and detail-oriented Junior Front-End Developer with a master's degree in computer science and 2+ years of experience in building responsive and interactive websites. Proficient in HTML, CSS, JavaScript, and front-end frameworks such as React. Adept at collaborating with cross-functional teams to deliver scalable, high-performance web applications. Certified in Microsoft Azure with a strong foundation in cloud technologies

TECHNICAL Skills

- Front-End Technologies: React.js, Bootstrap, HTML5, CSS3, JavaScript, jQuery

- Programming: C#, Python, Java

- Tools & Platforms: Git, Postman, Visual Studio Code, Notepad++, WordPress

- Databases: Microsoft SQL Server, NoSQL

- Cloud Platforms: Microsoft Azure, AWS

PROJECTS

Portfolio Website (React.js, Bootstrap)

- Built a responsive portfolio showcasing projects, integrating React components for reusable UI elements.

- Optimized for performance, accessibility, and cross-browser compatibility.

- Features include dynamic navigation menus, smooth scrolling, and form validation.

TinDog - Dog Dating Website (HTML, CSS, JavaScript, Bootstrap)

- Designed an interactive platform with mobile-friendly layouts and dynamic sections like testimonials and pricing plans.

- Implemented responsive elements to ensure usability across devices.

PROFESSIONAL EXPERIENCE

Junior Front-End Developer

Sunshine Crane and Transport | Hyderabad, India | Jun 2020 - Apr 2022

- Designed, developed, and maintained responsive web pages using React.js, HTML, CSS, and JavaScript, ensuring seamless performance across various devices and browsers.

- Optimized web applications, improving load times by 20% through performance tuning and best practices in coding.

- Collaborated with back-end developers to integrate RESTful APIs, ensuring smooth data flow and enhancing user experience.

- Improved accessibility by implementing WCAG standards, making the website usable for a wider audience, including users with disabilities.

- Participated in Agile workflows, including sprint planning, daily stand-ups, and retrospectives, contributing to team efficiency.

- Conducted regular code reviews, mentoring junior team members and ensuring adherence to coding standards.

- Developed reusable UI components with React.js, significantly reducing development time for new features.

Frontend Developer Internship

Full Stack Academy (Remote) | Jan 2024 - Mar 2024

- Collaborated with senior developers to design, build, and maintain responsive web applications using React.js and TypeScript.
- Implemented state management solutions using Redux and Context API, improving application performance and user experience.
- Built reusable, modular components and interactive user interfaces, ensuring maintainable and scalable front-end architecture.
- Conducted usability testing and debugging to identify and resolve cross-browser compatibility issues, ensuring consistent performance.
- Designed prototypes and mockups using Figma to translate user requirements into functional and visually appealing interfaces.
- Enhanced application accessibility by adhering to WCAG standards, improving usability for all users.

- Integrated RESTful APIs and managed asynchronous data handling for dynamic, real-time features.
- Partnered with UX/UI designers to improve user flows, navigation, and overall satisfaction through iterative feedback cycles.

EDUCATION

Master of Science in Software Engineering | Concordia University, Wisconsin

- Relevant Courses: OOPS using Java, Advanced Algorithms, RESTful APIs, Applied AI

Bachelor of Engineering | Osmania University, Hyderabad

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals

- Microsoft Certified: Azure Data Fundamentals

- Microsoft Certified: Azure Administrator Associate
